Have never owned Microsoft stock. I feel what the government did to that company was an abomination. One only has to look at what happened to the best telephone system in the world when they broke up AT&T. That is progress? Have you ever tried to make a call at an airport? Simply from the security aspects for our country it would have been best left alone. If it ain't broke don't fix it. Or better I'm from the Government and I'm here to help you. Save us from the do-gooders.
